SpiceKlub
Modern Indian Cuisine

SpiceKlub™
Modern Indian Cuisine

At **SpiceKlub**, we have perfected the art of turning an occasional meal into a memorable dining experience that appeals to all your senses. For our chefs, molecular dining translates into crafting dishes that carry the whiff and essence of 'familiar' tastes and is yet able to offer 'original' creations that are distinct and delightful.

While innovation and presentation form the core of molecular cuisine, at **SpiceKlub**, we lay equal emphasis on fresh ingredients and fulsome flavours, compromising neither on the authenticity of cooking techniques nor the taste of each preparation.

Every dish epitomizes a fusion of food science and creativity; of traditional dishes and progressive presentations.

Turn the pages and you will encounter several delectable items that have been pleasantly transformed to surprise you in playful and tantalizing ways: from bubbling beverages to deconstructed appetizers to inventive mains, right down to our desserts section, which is chock-full of sinful creations in imaginative avatars.

The dishes are presented with flair and minute attention to every little detail. Test-tubes, syringes, beakers, dry ice and several other unusual containers and elements come together to conjure an evocative tableau, right at your table

Having first opened its doors to discerning patrons in Mumbai, **SpiceKlub** now has a national and international presence with outlets in Kolkata, Pune, Chennai and Dubai.
